

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX TO VOL. XIX.

AFRICA, WEST COAST OF, means of preserving health on	75
AGRICULTURAL STATISTICS, questions as to	5
AMERICA, UNITED STATES OF.	
on distribution of emigrants from Europe over (see <i>Everest</i>) . . .	49
migrations of citizens from one state to another	53-4
tables of natives of each country of Europe in four divisions of the states, &c.	55-9
ANNUITIES (LIFE), financial statistics of British Government Life	
Annuities 1803-55 (see <i>Hendriks</i>)	325
various tables relative to (see <i>Hendriks</i>)	361-84
loss sustained by Government in granting	325
deferred annuity scheme	333, 348
deposit scheme and dead-weight annuity	334
long annuities expiring in 1860	338
tables of De Parceux and Kerseboom, notice of	331 (<i>note</i>)
Government tables and annuity plan formed in 1829	235, 345
ARMY, see <i>Mortality</i> .	
tables of the British	264-6
ARSENIC, quantity produced, exportation to Russia, &c.	320
ASSURANCE, Government Life Assurance Scheme	349 (<i>note</i>)
BABBAGE (Charles). <i>Analysis of the Statistics of the Clearing House</i> <i>during the Year 1839</i>	28
Facts necessary to be known to arrive at an appreciation of the daily amount of money exchanges	28
Days of the week when the clearance is a maximum	28-9
The largest clearings on Saturdays	29
Days when the clearance is a minimum	30
The least clearings on Thursdays	30
Relative clearings on each day of the week	31
Influences of the payment of wages and of private transfer days	32
— of Inland Bills and Stock Exchange settlements	33-5
Per-centage of bank notes used in clearing	35-7
— the less the larger the operations	36
Plans for publishing returns	37
Tables of various averages of clearings, per-centage of bank notes, &c.	38-48
BANK OF ENGLAND.	
weekly account of the issue and banking departments:	
Fourth quarter, 1855 . 95 Second quarter, 1856 . 303	
First quarter, 1856 . 199 Third quarter, 1856 . 399	
its present constitution and operations (see <i>Jellicoe</i>)	272
the issue department, &c.	273
the banking department	274
variations in its rates of discount in 1853-55	280
problem for settling the rate of discount	281
BANKS OF LONDON.	
list of those connected with the clearing-house	287
BANKS (JOINT STOCK), tables of their capital and deposits	161
BANKS (COUNTRY), amounts of promissory notes in circulation:	
Fourth quarter, 1855 . 96 Second quarter, 1856 . 304	
First quarter, 1856 . 200 Third quarter, 1856 . 400	
Scotland and Ireland, ditto	96, 200, 304, 400
BANKS OF ISSUE in Scotland, all joint-stock	144
amount of their paid-up capitals	145-6
VOL. XIX. PART IV.	2 E

	PAGE
BANKS (PRIVATE), only one in Scotland	147
BANK NOTES.	
per-centage amount employed in the clearing-house, 1839	35-9, 284
abolishment of small notes in 1826	149
laws of the circulation of, in Scotland	151
of £1 in Scotland, 1704-65	152-5
average circulation of, in Scotland	163-4
BATTLES, average mortality in	251-6
ditto, Alma and Inkermann	254
BAYONET, delusion of the notion of its superiority as a weapon	255
BILLS, discounting of, constant tendency towards excess	282
BRITISH ASSOCIATION, Section of Economic Science and Statistics, 1856,	
address of Lord Stanley	305
list of papers read	390
BULLION, additional imports of, into India, from capital subscribed in	
England, for railways there	111
CANALS, extent of, in England and France	4
CHEQUES, trifling use of, in Scotland	157
payments by, and objections to taxes on them	167-8
CLARKE (Robert). <i>Short Notes of the Prevailing Diseases in Sierra Leone, with a Return of the Sick Africans sent to Hospital in Eleven Years, and Classified Medical Returns for 1853-4; also Tables of the Number of Lunatics in the Hospital 1842-53</i>	60
Geographical position of Sierra Leone and its capital Freetown	60
Its productions, climate, population, food, &c.	61-2
Character and effects of the wintry dry Harmattan wind	61
Mortality of the climate to Europeans diminished by temperance, use of quinine, &c.	62
Causes of its insalubrity	62
The acclimating fever, usual period of attack, &c.	63
Yellow fever, supposed causes; its alliance to bilious remittent fever, &c.	63-4
The Africans not subject to yellow fever	64
The Kissy hospitals, their situation, number, and classes of patients, &c.	64-5
— number of liberated slaves, their distressing appearance and condition	65-6
Prevailing diseases among the negroes	67-74
— dropsy, small-pox, elephantiasis, rheumatism	67
— leprosy, guinea-worm, syphilis, &c.	68-9
— parturition as difficult in the negro woman as in civilized females	69
— midwifery practice among the natives, &c.; abortion, period of puberty, &c.	69-70
— paralysis, tetanus, epilepsy, lethargic sleep, &c.	70-1
— diseases of infants	71-2
— irascibility of the negro and its consequences	72
— mal d'estomac, or dirt-eating, hernia, deformities, stammering, blindness, &c.	72-3
— "country doctors" and remedies of the Africans	74-5
Means of preserving health on the West Coast of Africa	75
Tables of sick liberated Africans at the Kissy Hospital, 1839-54, &c.	76-9
Lunatics at the Colonial Hospital, 1841-54	80-1
CLEARING HOUSE (The).	
analysis of the statistics of, during 1839 (see <i>Babbage</i>)	28
tables of the various averages of clearings, &c.	38-48
table of aggregate demands made through, and amount of notes employed in, 1839	284
list of bankers connected with	287
CLIMATE of Sierra Leone, its mortality to Europeans diminished by use of quinine, &c.	62
causes of its insalubrity	62
COAL, localities of the collieries, and produce in 1854	320-1
COAL MINES, table of localities of	204-6
COINS (ROMAN), discoveries of, in India	107-8
COMMERCE, the external commerce of British India, 1834-54 (see <i>Sykes</i>)	107
CONGRES DE BIENFAISANCE (INTERNATIONAL), at Brussels, Sept., 1856,	
report on its proceedings by W. G. Lumley	385
COPPER MINES, produce, &c., of, in England	202-3
tables of localities of	204-6
produce of, in Cornwall, 1725-1800, and 1838-55	213-14
Swansea sales, quantities smelted, &c.	215-18

	PAGE
CORN, average weekly prices (with monthly and quarterly averages):	
Fourth quarter, 1855 93	Second quarter, 1856 302
First quarter, 1856 198	Third quarter, 1856 398
CRIMINAL STATISTICS.	
deterioration and deficiencies of our	5
localities of crime in Suffolk (see <i>Glyde</i>)	102
greater comparative criminality of villages than towns	105
CURRENCY in Scotland, laws of (see <i>Gilbart</i>)	144
— better management of, than in England	148
see <i>Bank</i> .	
— (GOLD), disadvantages of	158, 169
— (PAPER), comparative security of different forms of	283
— desirability of one free from hazard	279
— see <i>Bank Notes</i> .	
DEATH, see <i>Mortality, Registration</i> .	
DIRT EATING, frequency of, among the liberated Africans	72
EMIGRATION.	
distribution of emigrants from Europe over the surface of the	
United States (see <i>Everest</i>)	49
EQUITABLE VILLAGES in America (see <i>Pare</i>)	127
EVEREST (REV. ROBERT). <i>On the Distribution of the Emigrants from</i>	
<i>Europe over the Surface of the United States</i>	49
Advantages and disadvantages of the Free and Slave, and Old and New States	49
Influences of free institutions in forming the morals, &c., of a people	50
Proportions of settlers from European nations in the Old or New States	51
Influences to be considered with regard to their settlement in the Free or Slave	
States	51-2
Migrations of citizens of the states from one state to another	53
The emigration from the Slave States much greater than from the Free	53-4
Tables of numbers of natives of each country of Europe in four divisions of the	
states, (with corrected proportions)	55-7
— of natives of each group of states, ditto	58-9
FACTORY LIFE, influence of, on the health of the operative (see <i>Malcolm</i>)	170
hospital and dispensary returns relative to factory-workers	177-8
means for reducing amount of disease in	179-81
FLAX, microscopical analysis of the texture of	171
different processes in spinning	171-2
GILBART (J. W.). <i>The Laws of the Currency in Scotland</i>	144
The constitution of the banks of Scotland, all joint stock, with numerous partners	144
Their average paid-up capitals larger than those of English banks	145
Total amount of their paid-up capital 1½ millions	146
Only one private bank in Scotland	147
Operations; current accounts; deposit receipts, and cash credits	148-9
Abolishment of small notes in 1826, for the safety of the poorer classes	149
The system of exchanges of notes	150
Laws of the circulation of bank notes in Scotland	151
Annual, and other variations from panics, &c., 1834-54	151-2
Notes of £1 and under in Scotland, 1704-65	152
— their fluctuations, their proposed abolition, and its inconveniences	153-5
Operations affecting the currency by the laws of 1845	156-8
Trifling use of cheques in Scotland	157
Disadvantages in England from the use of a gold currency	158, 169
Tables, names of banks, dates of establishment, partners, capital, &c.	159-60
— Joint stock banks of London; their capital and deposits	161
Want of confidence in joint stock banks in England, from employment of too	
small a capital	162
Tables, Average circulation of notes in Scotland, 1834-54	163
— Circulation of banks in Scotland	165-7
Payments by cheques, and objections to taxes on them	167-8
GLYDE (John, jun.). <i>On the Localities of Crime in Suffolk</i>	102
Population, &c., of Suffolk	103
Comparative criminality of each of the poor-law unions	12-3
— of particular towns	103-4
Large per-centage of petty larcenies in towns	104
Greater comparative criminality of villages than towns	105
Excess of the graver offences in the country districts	105-6
GOLD, insufficiency of discoveries of, in Britain, to pay expenses of	
working	314
see <i>Currency (Gold)</i> .	

	PAGE
GUINEA WORM, mode of extraction by the negroes, &c.	68
GUY (William A.). <i>On the Nature and Extent of the Benefits conferred by Hospitals on the Working Classes and the Poor</i>	12
Large class of working men in receipt of good wages, who apply to hospitals	12-13
Want of uniformity in the systems of the different hospitals	13
Mode of registering patients at King's College Hospital and districts whence supplied	14
Poverty and density of population of the surrounding districts (with <i>Tables</i>)	14-15
Plan of districts of the London hospitals	16
Special account of the King's College Hospital district	16
Great excess of patients without letters of recommendation	17
Rate of increase of patients, 1840 to 1854	18
Number of patients in parishes and districts, and proportion to population	19-22
Two-thirds of the adult male applicants labouring men in receipt of wages	23
Results as to the classes of the recipients of relief	25
Question as to the fitness of working men as such to be objects of relief	25-6
— as to possibility of the exclusion of non-necessitous persons, and its difficulty	26
Possibility of requiring small payments for medicine from the out-patients	27
HEALTH, state of the public:	
Quarter Dec., 1855	85
— March, 1856	188
Quarter June, 1856	291
— Sept., 1856	394
— OF OPERATIVES, influence of factory-life on (see <i>Malcolm</i>)	170
HENDRIKS (Frederick). <i>On the Financial Statistics of British Government Life Annuities, 1808-55; and on the Loss sustained by Government in Granting Annuities</i>	325
System of Life Annuity and Tontine Loans antecedent to 1808	325
Extravagant rates per cent. paid, and its causes	325-6
Government Life Annuity Plan introduced in 1808 by Spencer Perceval	326-30
— errors of calculation, and loss to the public from ditto	326
Progress and amendments of ditto	330-38
— notice of the <i>Tables of Mortality</i> , of Price, and Annuity ditto of De Parcieux and Kerseboom	331 (<i>and note</i>)
— Deferred Annuity Scheme	333
— Deposit Scheme and Dead Weight Annuity	334
— the new Government Annuity <i>Tables</i> formed in 1829	335
— Act passed in 1838 for repealing power to grant Life Annuities	336
Financial statistics and results of Government Life Annuities during 1808-29	338-43
— Long Annuities expiring in 1860	338
Select Committee on Public Income and Expenditure;—Sinking Fund	343-5
Government Life Annuity Plan introduced in 1829 by H. Goulburn	345-53
— failure of the Deferred Annuity Plans	348-9
— Life Insurance Scheme	349 (<i>note</i>)
— selection of picked lives as nominees of Annuities against the interests of the Government	351
Financial statistics and results of Government Life Annuities during 1808-55	353-60
— adverse balance of 9½ millions to the Government	359
— impossibility of Government carrying on profitably the business of Annuities	359
— identity of the Life Annuity principle with that of the old Sinking Fund	360
<i>Tables</i> , abstracts of, showing Capital Stock cancelled, Life Annuities granted, Cash Payments in excess, and Net Loss to the Government	361-2
— of rates of Government Annuities, &c.	363-5
— Amount of Capital Stocks, Long Annuities, and Perpetual Annuities transferred	366-73
— Abstract of Government Annuities at separate periods	374-5
— Prices at times of Commutation into Life Annuities	376-7
— Ratios of Stock purchased to amounts transferred	378-9
— Perpetual Annuity Charge cancelled and Life Annuity Risk current in each year, and excess of the latter	380-3
— Amount of Deferred Life Annuities outstanding 1830-55	384
HODGE (William Barwick). <i>On the Mortality arising from Military Operations</i>	219
Data of the paper principally from the revolutionary wars of 1793, &c.	219
Want of provision for the registration of officers and soldiers	220
Examples from history of our learning little from experience	220-1
Proportion of non-commissioned officers 73 to 1,000 rank and file	223
Return of officers in the British Army, May, 1814	224
Proportion of deaths of officers from wounds after battle, to returns of "killed"	225
— of deaths among wounded 1 in 12 of officers, and 1 in 8 of men	226-8
Mortality among the "missing"	227-8
Proportions of deaths, discharges, &c., to strength of the army, 1803-12	230
Probable number of prisoners of war, 1793-1815	230
Estimated number of recruits, ditto	232
Summary of casualties in action	233
Annual ratio of mortality to mean strength of army	234
Comparative mortality of military and naval services	235-6, 245

HODGE (Wm. Barwick). <i>Mortality from Military Operations—continued.</i>	
Mortality of the army under Wellington, 1811-14	237
Greater mortality of the British than of the foreign and colonial corps	238
Calculations of estimated excess of mortality caused by the war (8,000 annually)	239-41
The actual slaughter of war not equal as an evil to the social misery it creates, (with examples in Sweden and Spain)	241-2
Greater number of casualties in actual service, but less disease among officers than men	242-3
Discrepancies in historical works as to strength of British military forces, 1804-5	244
Enormous amount of sickness in modern warfare, and proportion in various armies	246-8
Ditto in the Crimean campaign	248-51
Average mortality of troops in battles	251-6
— battles of Alma and Inkermann	254
Superior efficiency of missile weapons to the bayonet	254-6
Sieges—difference in French and English modes of attack, and results	257
Casualties among officers of the engineers at sieges	258
Losses of each side at the siege of Antwerp	258-9
Siege of Sebastopol, return of killed and wounded, &c.	259-61
Average mortality of battles and sieges	263
Enlogium on the character of the English soldier	263
<i>Tables</i> , Increase and diminution of the British Army, 1793-1815	264-5
— Effective strength of ditto in action	266
— Land battles—sieges	267-8
— Proportion of casualties, sickness, &c.	269-70
— Returns of British Army in Crimea	271
HOSPITALS (LONDON), on the nature and extent of the benefits conferred by, on the working classes and the poor (see <i>Guy</i>)	
classes of persons who apply to them	12-13
want of uniformity in the systems of	13
plan of districts of	16
— (KISSY) of Sierra Leone, returns of number of liberated slaves and other patients	64-6 76-9
HUNT (Robert). <i>The present State of the Mining Industries of the United Kingdom</i>	201, 311
Distribution of metalliferous ores	201-3
Produce of copper mines; value; direction of the lodes; rock in which worked, &c.	202-3
Direction of the lead-lodes, &c.	203
<i>Tables</i> of the localities of copper and coal mines	204-6
Produce of British tin mines since 1800	206
<i>Tables</i> of mines in Cornwall producing tin ore in 1855	207-11
Prices of tin, 1746-1825	211
Value of tin ore raised in England, 1853-5	211
Imports and exports of ditto since 1833	212
Produce of copper mines of Cornwall, 1725-1800, 1838-55	213-14
Swansea copper ore sales, 1804-54	215-17
Total quantities of copper smelted, imports, &c., 1850-4	218
Number and produce of lead mines in the United Kingdom	211-12
Modes of refining silver from lead, and average produce	212-13
Amounts of imports and exports of lead, 1848-54	213-14
Discoveries of gold in Britain, but their insufficiency to pay expenses of working Iron; localities of the furnaces; usual sources of the iron ores, and increase of produce	314 315-17
— Varying prices of bar iron, exports, &c.	318
Zinc, antimony, sulphur, arsenic, &c., produce and imports	318-20
Coal—Localities of the collieries, &c.	320
— Produce in 1854, 64½ million tons	321
Produce of our mines for 1854 28½ millions sterling, persons employed, &c.	322
Injurious effects of the deceptions used in the mining share market	322-3
Errors and waste connected with mining operations	323-4
INDIA, external commerce of British India, 1834-54 (see <i>Sykes</i>)	107
chief commodities of the trade of, with other countries	112
tables of imports and exports	115-26
the sink of the precious metals	114
INDIVIDUALITY, universality of, and sovereignty of the individual	128-31
INFANTS, diseases of, among the native Africans	71-2
IRON, localities of the furnaces, sources of iron ores, produce	315-17
varying price of bar-iron, exports	318
JELlicoe (Charles). <i>The Bank of England, its present Constitution and Operations</i>	272
Establishment, privileges, and mode of accounts	272
The Issue Department and Bank Charter Act	273
The Banking Department, and mode of action of the public on it	274

JELlicoe (Charles). *The Bank of England—continued.*

Comparative action of the two departments on each other, under disturbing influences	275-8
Present restriction on the banking department, its abolition advocated by Tooke, &c.	276
State of the Bank's finances at periods since 1844	276-8
Desirability of a paper money free from hazard	279
Expedients for remedying the restricted nature of the banking department	279-80
Variations in the Bank rates of discount in 1853 and 1855	280
Problem for settling the rate of discount according to quantity of gold in the Bank	281
Constant tendency towards excess of bill discounting	282
Comparative security of different forms of paper money	283

KING'S COLLEGE HOSPITAL (see *Guy*).

mode of registering patients at, and districts whence supplied	14
poverty and density of population of the surrounding districts	14-15
account of its district	16
patients of, great excess without letters of recommendation	17
— rate of increase, 1840-54, number in each parish, &c.	18-22

LABOUR , principles of equity in exchange of	133
relative repugnance of different kinds of	134-5

LABOURING CLASSES.

number of, with good wages, who apply to hospitals for relief	12, 23
question as to their fitness for ditto	25-6
see <i>Factory Life</i> .	

LARCENIES (Petty), large per-centage of, in towns	104
--	-----

LAW , civil judicial Statistics, entire want of, in this country	5
---	---

LEAD , amounts of imports and exports, 1848-54	313-14
---	--------

LEAD MINES in the United Kingdom, number and produce	311-12
---	--------

LEVI (Leone). *Resumé of the Second Session of the International Statistical Congress, held at Paris, Sept., 1855*

Assistance of statistics in the science of governing	1
Names of the principal statisticians at the Congress	2
Subjects considered	2-3
Little progress in England towards the constitution of a Statistical Department	3
Extent of roads, canals, and railways in England and France	4
Questions as to agricultural statistics	5
Deterioration and deficiencies of our criminal statistics	5
Entire want of civil judicial statistics in this country	5
Bankruptcy, provident institutions, accidents	6
Mental alienation, epidemics	7
Heads for statistics of great cities	9
View of the entire scope of statistical inquiry	10-11

LIFE TABLES, notice of those of Price, De Parceux, and Kerseboom 331 (*and note*)
— see *Annuities*.

LUMLEY (W. G.) , report of the International Congrès de Bienfaisance at Brussels, 1856	385
---	-----

LUNATICS at the Colonial Hospital, Sierra Leone, 1841-54	80-1
---	------

MALCOLM (A. G.) *The Influence of Factory Life on the Health of the Operative, as Founded upon the Medical Statistics of this Class at Belfast*

Government limitation of hours opposed to injurious influences of factory labour	170
Microscopical analysis of the texture of flax	171
Description of the different processes in spinning	171-2
Injurious influences of ditto, flax dust, position, and high temperature	173-4
Results of the influence of factory life	174, &c.
Health and diseases of female workers	175-7
Hospital returns relative to factory workers, comparative amount of diseases, &c.	177
Dispensary ditto, ditto	178
Preponderance of pulmonary affections	178-9
Means for reducing the amount of disease: fuller ventilation.	179
— prevention of inhalation of flax-dust, and provision against change of temperature	180
Encouragement of mental improvement, &c.	181

MEDICAL STATISTICS of operatives at Belfast (see <i>Malcolm</i>)	170
--	-----

METALS , distribution of ores	201-3
--	-------

METEOROLOGICAL TABLES:

Dec. quarter, 1855	90	June quarter, 1856	299
March „ 1856	195	Sept. „ 1856	395

	PAGE
METEOROLOGY of England and Scotland, by James Glaisher: . . .	
Dec. quarter, 1855. . . 89	March quarter, 1856 . . 192
	June " 1856 . . 296
MIDWIFERY practice among the native Africans	69-70
MILITARY OPERATIONS, mortality arising from (see <i>Hodge</i>).	210
in Crimea, sickness and mortality of	248-51
MINES, see <i>Coal, Copper, Iron, Lead, Tin</i> .	
MINING, present state of, in the United Kingdom (see <i>Hunt</i>)	201, 311
actual value of the produce of our mines, 1854, 28 $\frac{3}{4}$ millions sterling	322
deceptions of the share-market, and errors in the mining operations	323-4
MORTALITY of England and Wales:	
Autumn quarter, 1845-55 . . 86	Spring quarter, 1846-56 291
Winter " 1846-56 188	Summer " 1846-56 394
table showing comparative per-centage of male and female mortality, 1838-52, by S. M. Drach	182-3
on systems for classification of causes of death	8
of English watering-places	294
from military operations (see <i>Hodge</i>)	219
average of battles and sieges	262
estimated excess of, caused by war	239-41
average of troops in battles	251-6
ditto of officers and men	225-8
of the army under Wellington, 1811-14	237
comparative, of military and naval services	235-6
of the army much greater than the navy	245
NEGROES, prevailing diseases among, in Sierra Leone	67-74
irascibility of, and its consequences	72
OPIMUM TRADE to China, influence of, on the trade of India with England	113
PARE (William). <i>Equitable Villages in America</i>	127
The social problem desired to be solved by this system	127
Universality of "Individuality," and sovereignty of the individual	128-31
Cost—the limit of price, as opposed to the usual principle of "value as the limit of price"	131-8
Relative repugnance of different kinds of labour	134
Circulating medium founded on the cost of labour. "The labour note"	139-41
Adaptation of the supply to the demand, and its incompatibility with speculation	141-2
List of works on the system	143
PARTURITION in Negro women as difficult as in civilized females	69
PRICE, "cost," the limit of, as opposed to "value"	131-8
PRICES OF PROVISIONS.	
average of consols, wheat, meat, and potatoes, 1854-56	{ 84, 187 290, 393
PRISONERS OF WAR, probable number, 1793-1815	230
PUBERTY, period of, among native Africans	70
RAILWAYS, extent of, in England and France	4
REGISTRATION of marriages, births, and deaths:	
Quar. Sept. and Dec. 1855 . . 82, 88	Quar. Mar. and June, 1856 288, 295
— Dec. and Mar. 1855-6 . . 185, 191	— June and Sept. 1856 391
